

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. GENERAL INDEX

TO

CONSULAR REPORTS.

Nos. 112 to 151 (Vols. 32 to 41).

WASHINGTON:
GOVERNMENT PRINTING OFFICE.

1894.

NOTE.

The CONSULAR REPORTS is a monthly journal published by the Department of State. The first number was issued in October, 1880. The numbers run consecutively without break, the current number (January, 1894) being 160. At the outset each number contained an index, but there was no volume index. Beginning, however, with volume 17 (Nos. 57, 58, and 59) there are volume indexes. This is the third comprehensive index to the CONSULAR REPORTS. It tabulates its contents from No. 112 (January, 1890) to No 151 (April, 1893). The first general index covered the period from October, 1880, to December, 1885 (No. 1 to No. 59), and the second from January, 1886, to December, 1889 (No. 60 to No. 111). The arrangement of the present index is both geographical and topical, and the names of the contributors are placed in a separate list.

The following are the directions for binding the regular monthly issues of the CONSULAR REPORTS, beginning with No. 1 (October, 1880), and ending with No. 151 (April, 1893), making forty-one volumes:

Directions for binding.

Volume.	Months and year.	Numbers contained in volumes.
1.....	October and November, 1880.....	1, 2
2.....	January, February, March, April, May, and June, 1881.....	3, 4, 5, 6, 7, 8
3.....	July, August, and September, 1881.....	9, 10, 11
4.....	October, November, and December, 1881.....	12, 13, 14
5.....	January, February, March, and April, 1882.....	15, 16, 17, 18
6.....	May, June, July, and August, 1882.....	19, 20, 21, 22
7.....	September and October, 1882.....	23, 24, 24½
8.....	November and December, 1882.....	25, 25½, 26, 26½
9.....	January, February, March, and April, 1883.....	27, 28, 29, 30
10.....	July, August, September, and October, 1883.....	31, 32, 33, 34
11.....	November and December, 1883, January and February, 1884.....	35, 36, 37, 38
12.....	March, April, and May, 1884.....	39, 40, 41, 41½
13.....	June, July, and August, 1884.....	42, 43, 44
14.....	September, October, November, and December, 1884.....	45, 46, 47, 48
15.....	January, February, March, and April, 1885.....	49, 50, 51, 52
16.....	June (53 and 53½), July, August, and September, 1885.....	53, 53½, 54, 55, 56
17.....	October, November, and December, 1885.....	57, 58, 59
18.....	January, February, and March, 1886.....	60, 61, 62
19.....	April, May, June, July, August, and September, 1886.....	63, 64, 65, 66, 67, 68
20.....	September, October (68½, 69, and 70), November, and December, 1886.....	68½, 69, 70, 71, 72
21.....	January (73 and 73½), February, and March, 1887.....	73, 73½, 74, 75

SPECIAL CONSULAR REPORTS.

In addition to the monthly CONSULAR REPORTS, the following works have been published by the Bureau of Statistics of this Department.

"Labor in Europe," 1878, one volume; "Labor in Foreign Countries," 1884, three volumes; "Commerce of the World and the Share of the United States Therein," 1879; "Commerce of the World and the Share of the United States Therein," 1880-'81; "Declared Exports for the United States, First and Second Quarters, 1883;" "Declared Exports for the United States, Third and Fourth Quarters, 1883." "Cholera in Europe in 1884," 1885; "Trade Guilds of Europe," 1885; "The Licorice Plant," 1885; "Forestry in Europe," 1887; "Emigration and Immigration," 1885-'86 (a portion of this work was published as CONSULAR REPORTS No. 76, for the month of April, 1887); "Rice Pounding in Europe," 1887; "Sugar of Milk," 1887; "Wool Scouring in Belgium," 1887. "Cattle and Dairy Farming in Foreign Countries," 1888 (issued first in one volume, afterwards in two volumes); "Technical Education in Europe," 1888; "Tariffs of Central America and the British West Indies," 1890.

The editions of all these publications except the one last mentioned are exhausted.

Information relating to special subjects—secured by circulars addressed to consular officers—increased to such an extent that at length in 1890 the Department decided to publish such reports in separate form, to be entitled "Special Consular Reports." There are now nine volumes of these "Special Consular Reports:"

Vol. 1 (1890).—"Cotton Textiles in Foreign Countries," "Files in Spanish America," "Carpet Manufacture in Foreign Countries," "Malt and Beer in Spanish America," and "Fruit Culture in Foreign Countries."

Vol. 2 (1891).—"Refrigerators and Food Preservation in Foreign Countries," "European Emigration," "Olive Culture in the Alpes Maritimes," and "Beet Sugar Industry and Flax Cultivation in Foreign Countries."

Vol. 3 (1891).—"Streets and Highways in Foreign Countries."

Vol. 4 (1892).—"Port Regulations in Foreign Countries."

Vol. 5 (1892).—"Canals and Irrigation in Foreign Countries."

Vol. 6 (1892).—"Coal and Coal Consumption in Spanish America," "Gas in Foreign Countries," and "India Rubber."

Vol. 7 (1892).—"The Slave Trade in Foreign Countries," and "Tariffs of Foreign Countries."

Vol. 8 (1892).—"Fire and Building Regulations in Foreign Countries."

Vol. 9 (1892 and 1893).—"Australian Sheep and Wool," and "Vagrancy and Public Charities in Foreign Countries."

Of these Special Reports, "Cotton Textiles in Foreign Countries," "Files in Spanish America," and "Malt and Beer in Spanish America" are exhausted.

DISTRIBUTION OF CONSULAR REPORTS.

It is the practice of the Department to give at once to the press abstracts of dispatches containing commercial information the value of which would be lost by any delay in the publication. But in most instances such dispatches are, after revision in the Bureau of Statistics, printed in the Department. From the type are struck off four or five hundred copies of those reports which are of immediate interest. These, marked "Advance Sheets of Consular Reports, ——— Number," are promptly mailed to such newspapers and trade journals as are especially devoted to the dissemination of the kind of information that they contain. Later on plates are made at the Government Printing Office from the type containing these and other reports, from which is struck the monthly edition of the "Consular Reports on Commerce, Manufactures, etc." These come from the press about the 15th of each month. The mailing list, containing the names of those to whom these reports are sent, has been recently rigidly revised. At present it embraces about 1,200 newspapers and journals, 600 libraries, 150 boards of trade, and 3,000 individuals.

The responses to the Department's circular of May 6, 1892, concerning the contemplated revision of this list furnish strong corroboration of Mr. Evarts's declaration made in 1880 that the prompt publication of commercial information furnished by ministers and consuls had been "received with the greatest favor and * * * had the effect not only of adding to the interest in and knowledge of foreign trade, but of raising the foreign service of the Government in the estimation and appreciation of the country."

In compliance with the act of Congress approved June 18, 1888, agricultural and horticultural reports of consular officers are at once, upon their receipt, transmitted to the Department of Agriculture, that they may be embodied in the monthly bulletin of crop reports, or in the report of the Statistician of that Department.

The Department has made arrangements for supplying also the Smithsonian Institution, for publication, certain information obtained and transmitted by consular officers.

Whenever, indeed, the subject-matter of these reports seems to the Department to fall more properly within the province of another Department or bureau, the best results are, in its opinion, obtained by transmitting them to such other Department for publication. The very valuable treatises, for example, which were prepared by consular officers upon the civil service of other governments, in compliance with circular of this Department of February 21, 1893, have been given to the Civil Service Commission for publication in its annual report.

The Department receives in exchange for these reports about fifty trade journals, in which it observes frequent editorial allusions to the commercial facts communicated by the consuls of the United States. Very often these journals publish the whole or the greater part of these reports. It is, indeed, not unusual for a report upon some new process or one containing valuable suggestions concerning the enlargement of trade relations to appear again and again in the columns of these trade papers. For the purpose of bringing both the Department and the foreign service in closer touch with the commercial world the following letter was addressed June 12, 1893, to the more prominent papers of this character:

This Department is informed that certain trade and commercial journals are sent by their publishers to the consular officers of the United States for the purpose of furthering the introduction of American products and manufactures into their respective districts.

With a view to ascertaining the extent to which such papers are furnished, I have the honor to request that you will inform the Department whether your paper is sent to any of these officers, and if so, to which ones.

This Department is endeavoring to increase the value of the information relating to the commercial and manufacturing interests of the country, collected through its consular service, by the publication of advance sheets of the monthly CONSULAR REPORTS, giving timely information to trade and commercial papers concerning matters of special interest to their readers. Though the Department recognizes the valuable assistance which trade and commercial papers can render its officers by keeping them informed regarding American machinery, tools, and general products, it is not authorized to subscribe for them. It may be remarked, however, that papers sent to consuls will receive careful attention and will help them to enlarge the markets for the goods of those advertising in these journals.

A list of consulates is inclosed for the purpose of enabling you to make a selection of proper officers to receive your journal if you should consider it advisable to act upon this suggestion.

It was, of course, not expected by the Department that any considerable number of trade journals would be sent to all consular officers. Every proper end, it was considered, would be gained if each consul could obtain such journals as represented the industries of the United States to whose development he might contribute.

The following list contains the names of those journals which, as the Department was informed in reply to the circular above mentioned, will be sent to all or a large number of consular officers:

American Engineer and Railroad Journal (New York) to majority of consular officers.

American Exporter and El Exportador Americano (New York and Chicago) to consular officers in all parts of the world.

American Implement Herald (Indianapolis, Ind.) to "quite a number" of consular officers.

American Machinist (New York) to one hundred and fifty consular officers.

American Wood-Worker (Buffalo, N. Y.) to all consular officers.

Bonfort's Wine and Spirit Circular (New York) to nine consular officers.

Carriage and Wagon Maker (Chicago, Ill.) to the "better part" of the consular officers.

Carriage Monthly (Philadelphia) to twenty-seven consular officers.

Carriage World (Cincinnati, Ohio) to all consular officers.

Clothiers' and Haberdashers' Weekly (New York) to twenty-five consular officers.

Contanseau's Monthly Bulletin (New York) to all consular officers.

El Comercio (New York) to ninety consular officers.

Electrical Engineer (New York) to thirty-three consular officers and five legations.

Farm Implement News (Chicago, Ill.) to all consular officers at "frequent intervals."

Harness Gazette (Rome, N. Y.) to four consular officers, and "may increase list materially."

Hat Review (New York) to thirteen consular officers.

Hide and Leather (Chicago, Ill.) to principal consular officers.

Ice and Refrigeration (Chicago, Ill.) to one hundred and fifteen consular officers.

India Rubber World (New York) to five consular officers.

Iron Industry Gazette (Buffalo, N. Y.) to all consular officers.

Jewelers' Weekly (New York) to twenty-five consular officers.

Lumber World (Buffalo, N. Y.) to all consular officers.

McFaul's Factory and Dealers' Supply World (Buffalo, N. Y.) to all consular officers.

Merchants' Review (New York) to nine consular officers.

Milling World (Buffalo, N. Y.) to all consular officers.

Pacific Coast Wood and Iron (San Francisco, Cal.) to all consular officers.

Pacific Lumberman, Contractor and Electrician (San Francisco, Cal.) to eighty consular officers.

Pawtucket Commercial Bulletin (Pawtucket, R. I.) to some of the principal consular officers.

Providence Journal of Commerce (Providence, R. I.) to some of the principal consular officers.

Sewing Machine Times (New York) to all consular officers occasionally.

Shoe and Leather Reporter (New York) to "some" of the consular officers.

Spanish-American Buyer (New York) to one hundred and two consular officers.

Street Railway Review (Chicago, Ill.) to a "large number" of consular officers "occasionally."

Western Brewer (Chicago, Ill.) to one hundred and fifteen consular officers.

Wine and Spirit Bulletin (Louisville, Ky.) to "all, or at least most," consular officers "for six months."

Wine and Spirit Gazette (New York) to fourteen consular officers.

Wool and Cotton Reporter (Boston, New York, and Philadelphia) to about twelve consular officers.

All CONSULAR REPORTS distributed by the Department are bound only in paper.

AS TO THE SALE OF CONSULAR REPORTS.

The Bureau of Statistics (specifically provided for by law, 18 Stat., 90) had, prior to October, 1880, merely published the reports of consuls on commercial subjects in the annual volume entitled "The Commercial Relations of the United States," the publication of which is authorized by act of August 18, 1856. (11 Stat., 57, 58, 59, now Section 208, R. S.)

On March 12, 1880, the Secretary of State made a report to the House of Representatives, in answer to its resolution of March 2, 1880, calling for information in relation to the publication and circulation of commercial reports, in which he advocated:

(1) The frequent publication of consular and diplomatic reports upon commercial and kindred subjects of general interest.

(2) The limited gratuitous distribution of these publications, and the selling "of such additional number of copies as may be considered desirable, with a view to making the work generally accessible."

(3) The continuance of the annual volume of "Commercial Relations" in its present form, embracing within it the annual reports of consuls.

(4) The continuance of the system (then a few years old) of furnishing items of commercial information and abstracts of reports to newspapers, and, in addition, the supplying of chambers of commerce, by means of circular letters, with information of immediate interest.

By act of June 16, 1880 (21 Stat., 271) Congress approved these recommendations. It appropriated \$7,000 "for printing and distributing more frequently the publications by the Department of State of the consular and other commercial reports, including circular letters to chambers of commerce," and \$7,300 "for the clerical hire necessary for the competent administration of this whole branch of the public service in the collection, analyzing, publication, and distribution of commercial information under the Department of State."

The next year the clerical force employed in the preparation of these reports was merged in the regular staff of the Department, which was increased from four chiefs and thirty-nine clerks to five chiefs and forty-three clerks (act of March 3, 1881, 21 Stat., 391). But both in 1880 and in 1881 authority was given the Department to put a price upon these reports, to

sell them, and to pay the proceeds into the Treasury (compare pages 271 and 391 of 21 Stat.).

In 1881, however, not only was the usual appropriation made of \$7,000 for the printing and distributing of these reports, but in a distinct act another sum of \$10,000 was granted that they might be printed and distributed monthly. (Compare pages 391 and 456 of 21 Stat.).

On December 9, 1881, Mr. Blaine, in a letter to Mr. Allison, Chairman of the Committee on Appropriations of the Senate (see Report Book, 14: 249, MSS.), testified to the good results of these publications and urged that the system "be given a wider range." He added:

It would, moreover, better comport with the public function of a Department like this if its special commercial reports were distributed gratuitously where they would do the most good.

Since then the annual appropriation for this purpose has carried the sum of \$20,000, and there has been no repetition of the direction given in 1880 and 1881 for the sale of these reports.

Though the compiler of the Supplement to the Revised Statutes has incorporated in his text this legislative direction of 1880 and 1881, thereby indicating that, in his opinion, it is "neither obsolete, local, temporary and expired, special, superseded, nor repealed" (see his preface), it may be a question, in view of the foregoing, whether the increase of the appropriation, following Mr. Blaine's communication, was not meant to repeal that direction, as its evident intent was to give a large and unrestricted circulation to these reports.
